A WARM WELCOME FROM OUR CEO

Dear Valued Readers,

It's a pleasure to welcome you to the **MAY** Edition of our E-magazine! As we embrace a new month filled with fresh opportunities, I want to personally thank you for being part of our growing community of landowners, investors, and enthusiasts.

At Landzille, our vision goes beyond selling land. We're on a mission to empower and educate to simplify land investment, demystify industry terms, and break down complex processes so that everyone, regardless of experience, can make informed decisions and build lasting value.

This edition is a reflection of that commitment. Inside, you'll find insightful articles, timely updates, and helpful resources designed to guide you through every step of your land investment journey with clarity and confidence.

Thank you for your trust and continued support. Together, we're not just investing in land, we're building knowledge, opportunities, and legacies.

Warm regards,

Akingbade Akinfenwa

Founder & CEO, Landzille

1. MARKET TRENDS & INVESTMENT INSIGHTS

OVERVIEW

As of May 2025, the North Texas real estate and land investment market, particularly in the Dallas-Fort Worth (DFW) area, continues to exhibit strong performance, distinguishing itself from national trends. Here's an overview of the current landscape:

- » **Land and Commercial Development:** The commercial real estate sector in DFW is thriving, with significant developments in industrial hubs like Fort Worth's Alliance area. The region's favorable tax policies and business-friendly environment continue to attract large-scale investments, making it a prime market for both residential and commercial land development.
- » **DFW- Leading the Nation in Real Estate Growth:** The DFW metroplex is projected to be the hottest real estate market in the U.S. for 2025, driven by robust job growth, corporate relocations, and a steady influx of new residents. Since February 2020, employment in the region has grown by 11.2%, ranking fourth among U.S. metros. The area's economic diversity, housing affordability, and significant corporate presence, including 23 Fortune 500 companies, contribute to its appeal.

- » **Stabilization Amid Economic Uncertainty:** Nationally, the real estate market is showing signs of stabilization. As the U.S. stock market continues to experience turbulence driven by inflation, interest rate uncertainty, and global instability, savvy investors are increasingly looking for alternative assets that offer stability, long-term appreciation, and tangible value. Land investment has emerged as one of the most resilient choices in uncertain economic times. What makes land uniquely stable is its limited supply and ever-growing demand. While stock portfolios may lose double digits in a downturn, land continues to grow in value, particularly when near new developments, highways, or renewable energy projects.
- » **Reform of Housing Finance Corporations (HFCs):** Texas legislators are targeting loopholes in Housing Finance Corporations (HFCs) that have allowed certain agencies to secure tax breaks for affordable housing projects outside their jurisdictions. These reforms aim to ensure that tax-exempt housing developments genuinely benefit local communities and adhere to local regulations. Lawmakers from North Texas, including State Sen. Tan Parker and State Rep. David Cook are actively involved in addressing these issues.
- » **Continued Economic Growth and Development:** DFW is projected to be the nation's hottest real estate market in 2025, driven by strong economic fundamentals, including an 11.2% employment growth since February 2020. The region's economic diversity, with 23 Fortune 500 companies, and ongoing infrastructure investments are attracting businesses and residents alike.

EXPERT PREDICTIONS ON LAND VALUE APPRECIATION

- » **North Texas Land & Housing Outlook:** In the Dallas-Fort Worth (DFW) region, home/Land prices are projected to appreciate by approximately 3% to 5% in 2025. This growth is attributed to steady demand, particularly in suburban areas and smaller cities surrounding DFW, which continue to attract new residents and developers. Land values in Northeast Texas have shown consistent strength in recent years. While precise forecasts for 2025 remain limited, the ongoing stability in rural land markets indicates that the region continues to offer dependable, long-term investment potential.
- » **U.S. Real Estate & Land Market Trends:** Nationally, home price appreciation is expected to be modest in 2025, with projections ranging from 1.3% to 3.6%. Factors such as stabilizing mortgage rates—anticipated to average around 6%—and gradual improvements in housing affordability contribute to this outlook. In the agricultural sector, U.S. farmland has attracted significant investment, with values doubling over recent years. This trend is driven by expectations of rising global food demand and the recognition of farmland as a resilient, long-term investment.

Overall, while the national real estate market faces headwinds, North Texas stands out as a resilient and promising region for real estate and land investment in 2025.

2. FEATURED INVESTMENT OF THE MONTH: **CELESTE, NORTH TEXAS**

In the ever-evolving landscape of land investment, few places stand out quite like **Celeste**, a quiet rural town nestled in the heart of **Hunt County**, North Texas. Just under an hour from Dallas and a short drive from major hubs like Greenville and McKinney, Celeste is drawing serious attention from savvy buyers who understand the long game in real estate. Celeste offers the rare combination of wide-open spaces, peaceful surroundings, and increasing demand. With the growth of the **Dallas-Fort Worth metroplex** pushing outward, towns like Celeste are becoming valuable buffers between urban sprawl and rural retreat.

Celeste offers the kind of lifestyle that's increasingly rare; quiet roads, star-filled skies, and the freedom to use your land your way. Whether you're dreaming of a self-sufficient homestead, a weekend family getaway, or simply want to hold land in a fast-growing region, Celeste delivers on all fronts. With major urban centers expanding, more people are trading city noise for land and space. This trend is especially evident in North Texas where **affordability, accessibility, and livability** intersect — and Celeste is right in the sweet spot.

WHY CELESTE?

- » **Appreciating Value:** North Texas land values have risen steadily, with Hunt County seeing notable interest due to its proximity to DFW and affordability compared to Collin or Denton counties.
- » **Low Property Taxes:** Celeste ISD and Hunt County offer comparatively low annual tax rates — a plus for investors holding long-term.
- » **Development Potential:** With new families relocating from urban areas, there's growing demand for residential builds, hobby farms, and weekend retreats.

4. INVESTOR'S VOCABULARY: SPEAK THE LAND LANGUAGE.

Navigating the world of land investment requires more than instinct. It demands clarity, confidence, and a solid understanding of the industry's unique language. In this section, we break down key terms, buzzwords, and deal-making jargon to give you the edge. Whether you're new to the game or scaling up your portfolio, these insights will help you think sharper, negotiate smarter, and move like a pro in North Texas and beyond:

- » **Land Banking:** Buying undeveloped land in the path of future growth and holding it long-term for appreciation.
- » **Land Flipping:** Purchasing land at a low price and reselling it at a higher price, often without making improvements.
- » **Entitlement:** The legal process of gaining approvals for land use like zoning changes, permits, and development plans.
- » **Agricultural Exemption (Ag Exemption):** A tax status in Texas that significantly reduces property taxes for land used for agricultural production.
- » **Raw Land:** Undeveloped land with no utilities or improvements.
- » **Path of Progress:** Land located in the natural direction of urban or suburban expansion.
- » **Title Curative:** The process of resolving issues or "clouds" on a property's title (e.g., unpaid taxes, missing heirs).

- » **Buy and Hold Strategy:** Acquiring land and holding it over time to benefit from appreciation, tax advantages, or future development.
- » **Lot line Adjustment:** A legal process to alter the boundaries between two or more adjoining parcels without creating a new lot.
- » **Percolation Test:** A test to determine how quickly soil absorbs water — used to assess if land is suitable for a septic system.
- » **Easement:** A legal right granted to use another person's land for a specific purpose.
- » **Topography:** The physical features of the land, such as elevation, slopes, hills, and valleys.
- » **Title Insurance:** A policy that protects against losses from disputes over property ownership or existing liens.
- » **Zoning:** Government classification that dictates how land can be used (residential, commercial, agricultural, etc.)
- » **Encumbrance:** A legal claim or liability on a property that may limit its use or affect its transfer.
- » **Land Vesting:** How ownership is held (individual, joint tenants, LLC, trust, etc.)
- » **Plottage Value:** The increased value from combining adjacent parcels (assemblage).
- » **Land Note:** A promissory note held by a seller in a seller-financed land transaction.
- » **Takeout Buyer:** An investor or end user who agrees in advance to purchase a parcel after improvements or entitlements are completed.
- » **Feasibility Study:** A professional assessment to determine if a parcel can support a proposed use (residential, septic, subdivision, etc.).

5. COMMUNITY & DEVELOPMENT UPDATES

Honey Grove, Bonham, and Wolfe City in North Texas are seeing significant progress in infrastructure upgrades, land investment prospects, and sustainable development initiatives:

Infrastructure Enhancement: The Texas Water Development Board approved \$4.2 million for **Honey Grove** to replace 7,850 linear feet of water lines, construct a 100,000-gallon storage tank, and install a 500-gallon-per-minute pump, fire hydrants, and valves. An additional \$16.87 million has been allocated to double the capacity of the wastewater treatment plant and replace inadequate lines, enhancing the city's infrastructure.

Bonham is pursuing a \$1 million grant for downtown improvements, including sidewalks and mobility enhancements. Plans are underway to expand State Highway 121 to a four-lane highway, improving access and stimulating economic activity. The Bonham Heritage Day Festival which is Scheduled for Saturday, May 3, 2025, at the Fannin County Courthouse. The event celebrates the city's heritage with various activities and entertainment.

A major highlight in **Wolfe city** is the completion of the **Hanwha Q CELLS solar project**, a 126 MWac/168 MWdc facility. This project encompasses the installation of 415W photovoltaic modules, advanced tracker systems, and comprehensive grid integration components. It stands as one of the largest solar installations in the region, reinforcing Wolfe City's commitment to renewable energy and providing a substantial boost to the local economy through job creation and increased energy infrastructure. Wolfe City is set to benefit from the **Upper Trinity Regional Water District's** initiative to construct a 32-mile pipeline delivering water from Lake Ralph Hall to Collin County. The pipeline, scheduled for completion in 2025, will traverse northern Hunt County, including areas near Wolfe City, enhancing water accessibility and supporting future residential and commercial developments.

6. FAQs

Q: WHAT MAINTENANCE IS REQUIRED FOR THE LAND?

A: Unimproved land requires minimal upkeep, but you may need to manage taxes, fencing, or clearing vegetation, depending on local regulations.

Q: HOW DOES LAND APPRECIATE IN NORTH TEXAS?

A: With ongoing development, infrastructure projects, and population growth, land values in North Texas have historically appreciated over time.

Q: CAN I RESELL MY LAND IN THE FUTURE?

A: Yes, you have full ownership and can sell at any time. Many investors see significant returns as demand for land increases.

Q: DO I NEED A REALTOR TO BUY LAND?

A: No, you can buy directly from us without a real estate agent, saving on commissions and extra fees.

Q: WHAT ARE THE PROPERTY TAX RATES IN NORTH TEXAS?

A: Property taxes vary by county and city, but we provide estimated tax costs for each property.
